MARBLE.—Mr. J. FABBRICOTTI, of Carrara, Italy, Proprietor of Marble Quarries, and the only person in the United Kingdom selling Italian Marble the produce of his own quarries, begs to inform the gentlemen connected with the marble trade that he has established, in London, the most extensive Depôt of Statuary, Veined Sicilian, Dove, and Black and Gold Marbles, at CARRARA WHARF, THAMES BANK, PIMLICO, the first of Vauxhall-bridge.—Offices, 8, Crescent-terrace, Millbank. Mr. THOS. THOMPSON, Agent.

MARBLES, THIRTY-SIX VARIETIES.—Messrs. BANG, GOGEL, and Co. have the honour to announce that they are enabled to execute, with unusual facilities, any works with which they may be favoured in the above beautiful materials, introduced into this country for the first time from their own Quarries at a most moderate and hitherto unprecedented low cost. With these Marbles the most brilliant and artistic effects can be produced, and many of the reasons for the lining of walls in variegated colours can be supplied at English prices. Estimates given for veneered walls, inlaid artists' work, coat of arms, monuments, ornaments, reproductions of sculpture, bases and columns, fountains, embankments, floors (inlaid and plain), baths, tables, trusses, and skirtings.—Address to Messrs. BANG, GOGEL, and Co. Marble Works, Eaton-lane South, Pimlico, London.

Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.

Great Scotland-yard, Whitehall.

NOTICE.—PATENT PORTLAND CEMENT. The CO-PARTNERSHIP lately subsisting between ROBINS, ASPDIN, and COX, having been DISSOLVED on the 7th day of November last, by a decree of his Honour the Vice-Chancellor Turner, and an injunction granted, restraining William Aspdin, then of Urme House, Northfleet, Kent, from intermeddling with, or receiving or disposing of any of the moneys, property, or assets of the said late partnership, and from using or pledging the name thereof for any purpose whatsoever, Messrs. ROBINS and COX, being alone authorised to wind up the affairs of the late Co-partnership, request the Creditors of the late Firm forthwith to render their accounts that the same may be discharged; and the Debtors to the late Firm will be pleased at their convenience, to pay their accounts, either at the Cement Works, Northfleet, Kent, or at Great Scotland-yard, Whitehall, where Messrs. ROBINS and COX continue to carry on their Manufacture and Trade in Portland Cement, in connection with Messrs. Goodwin and Schmidt, under the style or firm of ROBINS and COMPANY.

4, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in consideration never before attained in Portland Cement. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—THOMAS FREEMAN and CO. having completed their works at WOOLWICH-ON-THE-MEDWAY for the manufacture of PORTLAND CEMENT, beg to inform their friends and the public that they are now ready to supply them with cement of superior quality on reasonable terms.—Roman Cement and Plaster of Paris Works, Tuscany Wharf, Canal-road, Kingsland-road.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill-wall, Poplar; St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT, in Casks of Four Imperial bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting Cement that requires no colouring. Sold exclusively by JOHN BAZLET WHITE and SONS, Millbank-street, Westminster; and Seel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well known hard success dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLET WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brick work, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLET WHITE and SONS, 17, Millbank-street, Westminster, and Seel-street, Liverpool.

WILLIAM ASPDIN'S PATENT PORTLAND CEMENT.—Messrs. ASPDIN, ORD, and Co. have much pleasure in informing consumers of this valuable Cement that as their works are now in operation they are prepared to execute any orders they may be favoured with.

New Wharf, Abingdon-street, Westminster, Sept. 21, 1852.

ROMAN and OTHER CEMENTS. Manufactured by J. W. BLANDFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta, Chimney Pots, Trusses, &c.

Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth; and Paddington basin.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Cotton Work-houses, Barracks, Schools, Prisons, &c. One coat will cover 250 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO'S STUCCO CEMENT. This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse 22, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

POZZOLANA from the Mine of St. Paul, at Rome.—CONTRACTORS, BUILDERS, and OTHERS constructing or repairing Docks, Quays, Wells, Foundations of Houses, or other works where the object is to prevent the Filtration of Water, are strongly recommended to use Pozzolana, which is the only Cement that guarantees perfect and durable solidity to hydraulic works. Mortar made of lime and Pozzolana is also particularly recommended in building houses. The walls are thus impervious to damp. When common mortar is used the damp of the atmosphere in rainy weather attracts the saline particles in the sand, which evaporating, produces a moisture in the interior of the houses equally injurious to the furniture and to the health of the inhabitants.

Whole cargoes of Pozzolana delivered to any port of the United Kingdom on very moderate terms, and large or small quantities in London.

Apply to Messrs. A. SNIDER, PELLEGRINI, and CO. 112, Fenchurch-street, London.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg, in a similar work at Alderney, and at Dover New Pier, to unite the masonry. The foundation of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and ironshingle. The work extends 300 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or Wm. Medina Mill, Newport, Isle of Wight.

Agent for Southampton, R. L. PLUDER, American Wharf.

PATENT PORTLAND and ROMAN and ASPTON CEMENTS.—WINFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for the above Cements. Many highly respectable references can be given where their cements have been successfully used, both at home and abroad. Orders received and executed either from their works at Greenwich, or their wharfs, Lindsey Wharf, Chelsea; 24 Wharf, Harrow-road, Paddington; Phœnix Wharf, Whitefriars; Pimlico Wharf, Kingsland; and Messrs. COLWILL, Bros. and Co's. Bridge-st. Covent Garden, opposite the Opera of "The Bohemian Girl."—Agent at Southampton, Mr. GEORGE SHARP, Union Wharf.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c. 31, Parker-street, Drury-lane. A splendid assortment of Cornishes, Ionic, and other Capitals, Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

TERRA COTTA.—Vases, Figures, Capitals, Crests of Arms, Friezes, Consoles, Chimney Shafts, Flower Trays, &c. &c. manufactured by J. M. BLASHFIELD, Milk-wall, Isle of Dogs, near the West India Docks, and sold at No. 1, Pratt-street, Edward-road, Paddington.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper in concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors of the above is the best recommendation.

Gibbs, Canning, and Co's Blue Vitrified Bricks, Pipes, Tiles, Stations Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ASPTON, and LIAS Cements of the best quality.

GREY STONE and CHALK LIME FRESH from the KILNS DAILY.—W. PARRY, Crown Wharf, Surrey Canal-bridge, Old Kent-road, begs to inform builders and the trade generally that he can SUPPLY them with LIME direct from the Kilns, and at the Wharf, Brickhill-road, Arms, Forest Hill, and Sydenham Stations, to any part of London or the coast. Also, grey stock bricks, malms, and cutters, red and white facing bricks, Portland and Roman cements, plaster, hair, rentiles, paving tiles, paving tiles, chimney pots, and draining pipes of all descriptions. Thames sand and ballast constantly on sale. A good wharf for landing goods. Country orders punctually attended to.

Address to the Wharf.

ENCAUSTIC TILE PAVEMENTS at VERY LOW PRICES.—MAW and CO. of Worcester, being about to remove their works to Benthall, near Broseley, Salop, which will be their address after Christmas, are disposing of several quality tiles, viz. such as are somewhat defective, but which form good, durable, and handsome pavements, at prices which afford an opportunity not likely again to occur of so cheaply paving public and private edifices with this useful production of national art. Estimates furnished, with designs, showing the patterns, ancient or modern, arranged to suit any given dimensions, but an early application is necessary, as the stock diminishes in extent of pattern, as well as quantity. N.B. MAW'S Book of ENCAUSTIC TILE PATTERNS and their arrangements will be sent free on application to MAW and CO. Worcester.

RED KILN BRICKS can be had at very moderate prices, by applying to WILLIAM HONE, Lordship Brickfields, near Cheshunt.

WHITE BLUNHAM BRICKS and TILES.—These goods, so justly celebrated for retaining their colour without vegetating, and, combining great strength with a fine face, can now be obtained, in London, in various forms and sizes and in any quantity. The Parlia Tiles, Chimney, Sylers, Bullnosed, and Facings are well worth attention. Sole Agents, PHILIP HARE and Co. 22, Steel-yard Wharf, Upper Thames-street.

WHITE SUFFOLK and RED FACING BRICKS of superior quality. Moulded Bricks to any pattern.

COWLEY, KENT, and ESSEX BRICKS; also Yellow and Pale Malm Seconds, Cutters, Paviors, Shippers, &c. &c.

KENTISH RAG STONE of the finest quality, and of the size things so much approved by architects, can now be supplied, at a FURTHER and CONSIDERABLE REDUCTION in PRICE.

Apply to Mr. BENJAMIN GOUGH, E. Newington-crescent, Newington Butts.

DODD'S Brickfields, which are only a quarter of an hour's walk from the City.—H. D. earnestly requests purchasers to favour him with a visit, in order to inspect his stock, and to judge for themselves.

Malm Place, half-washed stocks, and Place Bricks also on sale. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.

Apply to HENRY DODD and CO. at the Countinghouse, Horsley Brickfields, Orange-walk, near the Rosemary Branch, Hoxton.

N.B. Red pit sand of approved quality constantly on sale upon reasonable terms. This sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

PAN TILES, 48s.; Plain, 32s. 6d.; superior White Suffolk Facing, Red ditto, Fire Brick, 45s.—best Stourbridge, Welsh, and Newcastle Fire Bricks, Lumps, Tiles, Clay, Windsor Loam, &c. &c. and other shaped Goods, Windsor and Nonsuch Green Tiles and Bricks, Dutch and English Clinkers, Patent Malthis and Core-drying finely-perforated Tiles, 12in. and 9in. Paving ditto, unequalled in quality and colour, at WARD'S old-established Honduras Wharf, Bankside, Southwark, London. Thames sand, Concrete, Gravel, &c. &c.

PRIZE MEDAL AWARDED TO PEAKE'S TERRO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL, which, when well wrought, is probably superior to every other for drains or conduits, for ridges, hips, valleys and every part of roofs, for plain or chequered floors, for paving and erections of a strong and durable nature, also many other purposes, supplied gratis by THOMAS PEAKE (proprietor of Peake's "Terro Metallic"), No. 4 WHARF, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Staffordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class E, No. 135, having been at the No. 131.
